Going Out with a Group of People

Children's
Specialized Hospital®

An RWJBarnabas Health facility

When going out somewhere with a group of people, it is helpful for me to stay together to the places I go.

If I would like to go somewhere without the group, I should tell at least one of them where I am going and how to contact me.

I need to make sure that I talk with the group about how and when I will get back together.

It is important that young children do not leave the group alone.
