

Making a First Aid Kit

A first aid kit is helpful to have when someone gets hurt.

The quicker a first aid kit can be accessed, the sooner a person can use it. That's why it's important to know where the first aid kits are, and to make sure they are stocked with necessary items.

Two places to keep a first aid kit are in a house or apartment and in a car.

You can put together your own first aid kit or you can buy one already made.

First aid kits are available in many drugstores, department stores, grocery stores, and online.

When making your own first aid kit, you can find the items you need in many of the same places.

Remember, you can contact your health care provider or a person you go to for support if you are not sure what to do.

Making a First Aid Kit – Continued from previous page.

To put a first aid kit together, find a plastic container or box with a lid or a large bag. Here are some items that you can put into your first aid kit.

A sheet of paper that has includes the following information:

- your health care providers (Be sure to include any specialists you visit.)
- a few family members and/or friend who can be called in case of an emergency (Be sure to let them know they are on your list.)
- the phone number for the Poison Help Line (The toll free phone number for anyone in the United States is 800-222-1222)
- a list of all your prescription and other medicines that you take (Include vitamins and other natural supplements you might take)
- It is helpful to have a list of your family’s healthcare needs. You can ask your family for important health information such as any illnesses, conditions, and medications.

My Essential Medical Information

My name is: _____

The name I like to be called is: _____

My phone number is: (____) _____ - _____

My birthdate is: Month _____ Date _____ Year _____

My blood type is: (check one) A+ A- B+ B- AB+ AB- O+ O-

I have these medical illnesses, conditions, or disorders: _____

These are the names and phone numbers of my medical providers:

_____	(____) _____ - _____
_____	(____) _____ - _____
_____	(____) _____ - _____

I currently take the following medication(s):

Medication _____	Dosage _____
Medication _____	Dosage _____
Medication _____	Dosage _____
Medication _____	Dosage _____

I am allergic to: _____

I use these assistive devices: _____
