

I am going to an egg hunt.

RWJBH.org/CSH

An egg hunt is a game. Some egg hunts are outside and others are inside.
Lots of colored plastic eggs are placed around in a certain area.

I can bring a bag, bucket, or basket to the egg hunt.

During the egg hunt, it is helpful to put the eggs I collect into my bag, bucket, or basket.

During the egg hunt, I look for eggs. Some may be hidden around the area.

When I am told to start, I walk into the area with the plastic eggs. I don't run or push others in the area.

I always stay in the area with others during the egg hunt.

When I find an egg, I pick it up and put it into my bag, basket, or bucket.

There are many eggs to choose from. These eggs are for everyone to share.

I make sure I don't take too many eggs so everyone can have some.

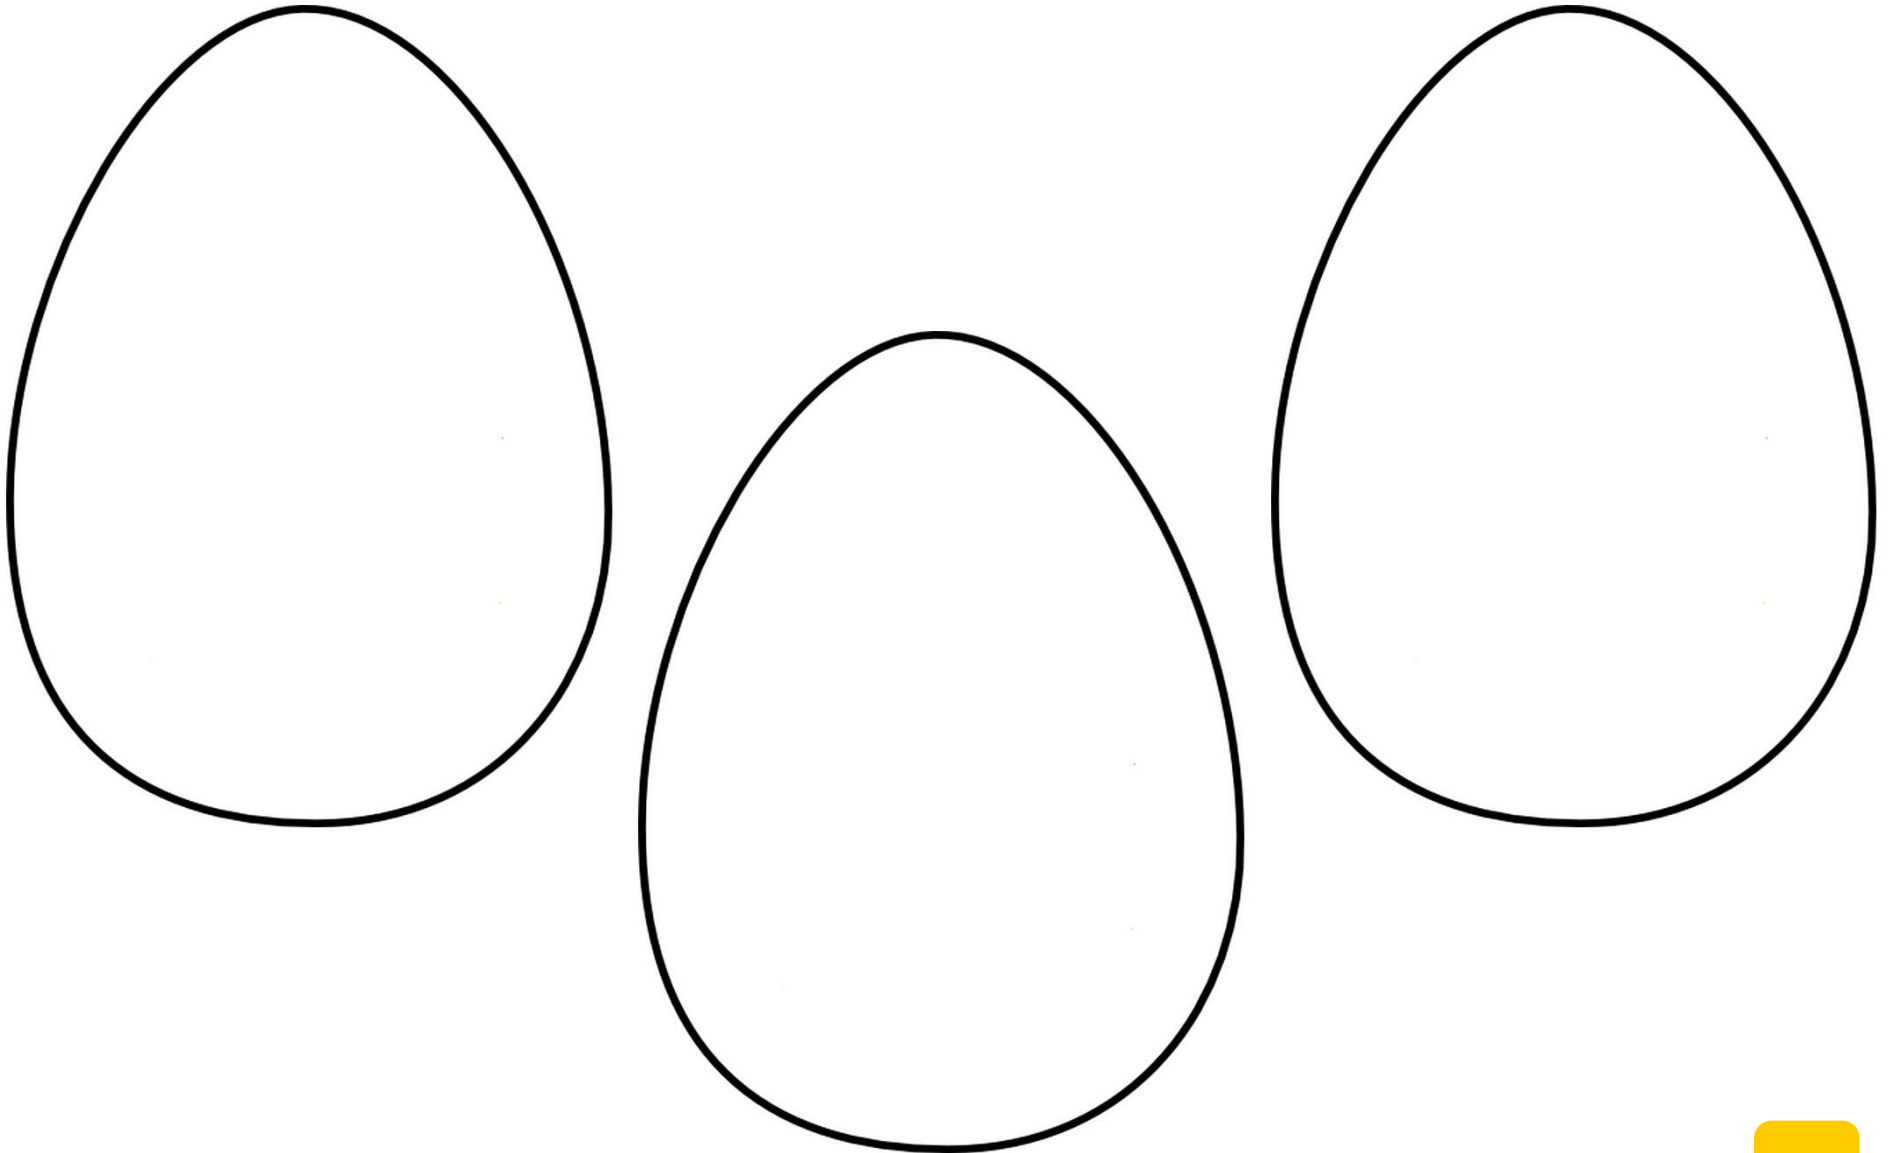

At the end of the egg hunt, I show the eggs I found to my family or friends.

If a person didn't find an egg, I can give the person one of my eggs.

Inside the plastic eggs, there may be prizes, chocolate, or candy.

I carefully open the egg with my family or friends to see what is inside.

I can color these eggs to remind me about the egg hunt.
