

Registration for Public Access to Defibrillators

It is important to notify our Communications Center if your building has public access to defibrillators. When someone calls 9-1-1 for a cardiac arrest, our dispatcher can notify the caller where the defibrillator is located. When the defibrillator is turned on, it will give verbal instructions. Studies have shown that early CPR and defibrillation can save lives.

Business Information

Business Name:	
Street Name:	
City:	
Postal Code:	
Contact Name:	
Telephone:	
Fax:	
Email address:	

Location of Defibrillator(s)

Floor Number:	
Exact Location:	
Floor Number (2 nd device):	
Exact Location:	
Floor Number (3 rd device):	
Exact Location:	
Floor Number (4 th device):	
Exact Location:	

This information will be entered into our dispatch computer system. When a caller identifies your address, a note will indicate that you have access to a defibrillator and incorporate it into their instructions. If you have questions or need additional information, please call us at 201-324-5023, or fax it to 201-324-5004, or by email at HUDCEN@JCMCEMS.ORG.

Thank you for your interest in JCMC EMS.

Once the form is completed, please email or fax it to us.
