

# Greenhouse Field Trips

Students will gain hands-on experience in our hydroponic greenhouse learning to plant seeds, transplant seedlings and harvest fresh veggies to take home and share with their family.

Field trips include a greenhouse tour, hands-on farming experience and recipe testing using fresh ingredients from the Greenhouse. Elementary school students will learn about the life cycle of a plant, Middle school students will focus on hydroponic growing methods and High school students will discuss food access issues in urban areas.

## Greenhouse Field Trips include:

- Year-round trips for grades K-12, scouts, seniors, community groups and more.
- Hands on Hydroponic experience
- Plant seeds, transplant and harvest fruits and vegetables
- Healthy recipe making and tasting

**To schedule a field trip contact Molly Fallon, MS, RDN at 973-926-7371 or [Molly.Fallon@rwjbh.org](mailto:Molly.Fallon@rwjbh.org)**
