

DID YOU KNOW...

Community Medical Center (CMC) is evolving to shape the future of healthcare! Over 60 years ago, philanthropy inspired CMC's beginnings, and now, thanks to the generosity of donors like you, we are transforming patient care at CMC through several exciting projects.

The Emergency Department, now named The Hirair and Anna Hovnanian Emergency Pavilion, completed its final phase of total renovation in July. The department's update was focused on improving the patient's experience and the efficiency of care through features such as individual rooms and centrally located radiology services. Newly acquired technology, like point-of-care ultrasound, makes diagnosis and treatment faster for patients seeking emergency care.

Through philanthropy, we are also expanding outpatient services and bringing the latest technology to our patients, close to home. Technology, like the state-of-the-art NuVasive PULSE navigation system, is helping to guide us to the forefront of spine surgery. With help from generous donors, CMC became a teaching hospital in 2021, and we recently welcomed our third class of residents to the Grunin Foundation Graduate Medical Education Wing within the hospital.

WE CONTINUE TO MAKE IMPACT TOGETHER

Did you know every gift counts? It takes all of us to improve the health of our community. Here are just a few examples of how donors can truly make a difference. As we shape the future of healthcare in Ocean County, your support is vital. **Scan the QR code to read more about donor support.**

Through a planned gift of more than \$100,000, Community Medical Center was able to purchase eight of the most advanced baby warmers, enabling us provide the best care to our newborns. We are so thankful to our donors who remember the hospital through their will, trust or financial investments. **To learn more about making this type of meaningful gift, contact the Foundation at Jennifer.Shufan@rwjbh.org.**

Community leaders Stephan and Judith Leone supported the **Campaign to Transform Community Medical Center (CMC)** with a generous gift to renovate the emergency department's results waiting area. We are proud to be one of the many organizations Stephan and Judi support in Ocean County, and grateful they have joined donors to this *Campaign to Transform CMC*.

OceanFirst Foundation partners with local organizations to make life better in the neighborhoods they serve. **In 2023, OceanFirst Foundation awarded \$15,000 to CMC for the Cancer Transportation Program.** Recognizing that a cancer diagnosis is life changing, CMC established a cancer transportation program for patients receiving treatment at the J. Phillip Citta Regional Cancer Center. By providing transportation to and from life-saving treatment, we remove a bit of uncertainty from people's lives and give them one less thing to worry about during an extremely stressful time. We are so grateful to partners in our community like OceanFirst Bank.

The Emerging Leaders Council is a group of professionals who live and work in Ocean County and are interested in learning about and supporting their local hospital. They educate others and raise funds for CMC, centering their focus around projects in the mother/baby unit. This group committed to a \$38,430 pledge to build 2 lactation rooms in the hospital to be used by patients, staff and visitors. They completed this pledge by hosting fundraising events such as Fall Fest, Mini-golf, 50/50 raffles, third party fundraisers, and more!
