RWJBarnabas
HEALTH

Let's be healthy together.

New Jersey's Most Comprehensive Children's Health Network

The Children's Health network at RWJBarnabas Health, in collaboration with Rutgers Health, offers a wide range of pediatric services, from primary care to specialized treatments and therapies.

As the state's largest academic health system, and the largest provider of children's health care, we have specialists in all areas of pediatrics. Our Children's Health network is comprised of four acute care children's hospitals — The Bristol-Myers Squibb Children's Hospital at Robert Wood Johnson University Hospital; Children's Hospital of New Jersey at Newark Beth Israel Medical Center; Cooperman Barnabas Medical Center and Unterberg Children's Hospital at Monmouth Medical Center and the state's only pediatric rehabilitation hospital, Children's Specialized Hospital.

Collaborative teams that include clinicians and researchers from Rutgers Robert Wood Johnson Medical School and the Child Health Institute located on The Bristol-Myers Squibb Children's Hospital campus provide family-centered care in a patient-centered, family-friendly environment.

To view more pediatric subspecialists and pediatricians affiliated with our children's hospitals, visit [**rwjbh.org/childrenshealth**](https://www.rwjbh.org/childrenshealth)

Children's Hospitals
