

WE MADE AN IMPACT TOGETHER

**Our donors help us create a healthier community,
and for that, we thank you.**

"I am at the point in my life where I want my gifts to have real impact, and I could think of no better way to do that than to make this investment in healthcare in the community that has given so much to our family."

- Leon Cooperman

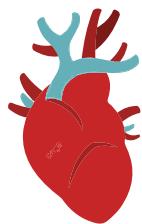

Donor support continues to propel Cooperman Barnabas Medical Center into the future. Our most notable donation, the one that changed the name of the hospital, came last year from the Cooperman Family Foundation. The \$100 million gift is the largest ever given to any hospital in New Jersey and will allow the Medical Center to continue its ongoing transformation into a world-class healthcare institution that provides the highest quality and most advanced care available in the New York metropolitan region. Leon and Toby Cooperman have an extensive history of philanthropy and previously donated more than 100 times to the Medical Center, including a \$25 million gift in 2014 that provided the catalyst for a \$200 million, 241,000-square-foot medical building named in their honor.

**Each patient represented in the statistics on the back page, is a life that was touched by philanthropy.
Your support truly does matter.**
