

Please join us

Autism Caregiver Support

**10:00 – 11:00 a.m. | Monmouth Medical Center, Southern Campus
600 River Avenue, Lakewood
3rd floor conference room**

Facilitated by Rachel A Halfant, MS, NY and NJ Certified School Psychologist, former coordinator and evaluator with the NYC Department of Education ASD programs, this is a group with the caregivers of children with Autism.

We will share the many feelings that arise from trying to understand our children, so often painful and confusing. We may not provide answers but will share the successes and failures of our interactions, and learn from each other.

Join us to share the feelings of joy and tears of our different but wonderful children. Or join us just to listen.

This group will meet on the third Wednesday of every month, Preregistration is not required, but preferred.

**To register or for more information, please call
Kelly DeLeon, MS at 732.597.6075.**
