

Our expanded Emergency Department includes:

**256**  
Slice CT Scanner  
and other radiology  
equipment dedicated  
to the ED

**50%**  
increase in  
pediatric  
patient rooms

**102**  
patient  
treatment  
rooms

Double the capacity -  
can now accommodate  
**130,000**  
patient visits annually

Responding to the community's unexpected health emergencies is a priority at Cooperman Barnabas Medical Center. For thousands of children and adults, a visit to our Emergency Department is the first encounter with the Medical Center. Designed to complement the clinical excellence of our board certified emergency medicine physicians, double board certified pediatric emergency medicine specialists, and critical care trained nurses, our fully renovated and expanded facility provides access to leading-edge care with enhanced safety, privacy and convenience. **Cooperman Barnabas Medical Center is able to provide the highest level of care thanks in part to donors like you.**

# WE MADE AN IMPACT TOGETHER

**Eric Handler, DO, FACEP**  
Chair of Emergency Medicine

Dr. Handler has been treating patients in Cooperman Barnabas Medical Center's Emergency Department with expert skill and a commitment to comprehensive care since joining the team as a board certified attending physician in 2005. As the newly appointed Chairperson of Emergency Services at Cooperman Barnabas, Dr. Handler's invaluable experience and trusted leadership will ensure that the newly expanded Emergency Department exceeds the highest standards of emergency care.

*"The Emergency Department at Cooperman Barnabas is this community's most critical resource. Our dedicated team of physicians, nurses and staff are expertly trained to care for a spectrum of illness and injury, to treat every individual patient and respond to large scale emergencies, with unwavering excellence. This unprecedented transformation of our facility joins state-of-the-art innovation with patient-centered design to redefine the entire patient experience."*

This Emergency Department expansion improves access to care, enhances patient comfort, and expedites diagnosis and treatment. This ambitious project is now complete and ready to benefit thousands of families, friends and neighbors.

**48 Adult Patient Care Rooms:** spacious, comfortable and outfitted with the most advanced medical equipment

**22 Private Observation Unit Rooms:** specially-designed for patients undergoing thorough testing

**13 Fast Track Bays:** constructed to expedite care of patients with less acute conditions

**Patient Intake Area:** three times larger to accelerate the triage process and determine next steps in treatment of adult patients

**Pediatric Emergency Department:** providing a separate child-friendly area for care

**An innovative Results Pending Area:** where patients can comfortably await test results

*Adult Patient Care Area*

*Pediatric Clinical Work Station*
