RWJBarnabas Health Office Managers Association
will be offering a 2021 CPT® Coding Webinar to get
you prepared for the 2021 CPT® code changes.

2021 CPT® Coding Updates

Join us to learn about the CPT® code updates to keep your coding accurate as we embark on a New Year. In this webinar, presented by *Jean Buble, Corporate Vice President of Case Management and HIM at RWJBarnabas Health*, you will learn what has changed; but, more importantly, you will also learn to recognize why codes have updated, how to apply the new codes, and what should be documented to support them. We will also discuss tips for proper use. Information about the new 2021 E/M guidelines for office and outpatient encounters will also be offered. All webinar materials will also be available to you as a reference throughout 2021.

Objectives:

- ▶ Learn how to apply the updates to common coding cases (hands-on exercises with expert presenters)
- ▶ Identify potential coding mistakes that will impact revenue as a result of these changes
- ▶ Get your office compliant ahead of the transition
- ▶ Review rationales for all major changes; understand the “what” and the “why”
- ▶ Prepare your physician(s) for compliant documentation
