

Clinical Trials at the Cancer Institute of New Jersey – Hamilton
Currently recruiting participants (updated as of September 17, 2015)

Breast Cancer

SWOG S1007	A Phase III, Randomized Clinical Trial of Standard Adjuvant Endocrine Therapy +/- Chemotherapy in Patients with 1-3 Positive Nodes, Hormone Receptor-Positive and HER2-Negative Breast Cancer with Recurrence Score (RS) of 25 or Less
SWOG S1207	Phase III Randomized, Placebo-Controlled Clinical Trial Evaluating the Use of Adjuvant Endocrine Therapy +/- One Year of Everolimus in Patients with High-Risk, Hormone Receptor-Positive and HER2/neu Negative Breast Cancer
NSABP B-55	A Randomised, Double-Blind, Parallel Group, Placebo-Controlled Multi-Centre Phase III Study to Assess the Efficacy and Safety of Olaparib Versus Placebo as Adjuvant Treatment in Patients with Germline BRCA1/2 Mutations and High Risk HER2 Negative Primary Breast Cancer Who Have Completed Definitive Local Treatment and Neoadjuvant or Adjuvant Chemotherapy
ECOG E-2112	A Randomized Phase III Trial of Endocrine Therapy plus Entinostat/Placebo in Men and Postmenopausal Women with Hormone Receptor-Positive Advanced Breast Cancer
Lymphedema Registry by Stanford University Medical Center	A registry to study breast cancer-related lymphedema. By collecting your health information, we hope to learn whether early diagnosis will help to prevent lymphedema or, if it occurs, to reduce the severity.

Gynecologic

CINJ 130909	Psychological Interventions for Gynecologic Cancer
-------------	--

Colon

CALGB C80702	A Phase III Trial of 6 versus 12 Treatments of Adjuvant FOLFOX plus Celecoxib or Placebo for Patients with Resected Stage III Colon Cancer
--------------	--

Chronic Lymphocytic Leukemia (CLL)

A041202	A Randomized Phase III Study of Bendamustine Plus Rituximab Versus Ibrutinib Plus Rituximab Versus Ibrutinib Alone in Untreated Older Patients (\geq 65 Years of Age) With Chronic Lymphocytic Leukemia (CLL)
---------	--

Cancer Patients and Care givers

The Cancer Experience Registry Trial	A survey for patients and care givers to share their story, that can help bring knowledge and insights about their social and emotional needs and provide them with information on the development of new programs, research and policy.
--------------------------------------	--

Adult Patients undergoing a Nipple Sparing Mastectomy

ASBrS Nipple Sparing Mastectomy Registry	The American Society of Breast Surgeons would like to use your health information in a Nipple Sparing Mastectomy Registry. By placing the health information of many patients such as you into a research registry, researchers will be able to increase their knowledge about breast cancer and answer questions about breast cancer and its treatment.
