

WELCOME

Children's Hospital of New Jersey

Dear Friends:

Welcome to Children's Hospital of New Jersey at Newark Beth Israel Medical Center (CHoNJ). We are here to meet the needs of your family and offer expert medical care with a compassionate, personal touch.

CHoNJ is the state's premier hospital caring for children, with specialized services to treat ill and injured children from newborn to adolescent years as well as preventive programs that promote wellness in the community. Children's Hospital of New Jersey is a facility of Barnabas Health, the largest integrated health care delivery system in the state.

As a hospital devoted only to children, CHoNJ recognizes that the special needs of children and their families extend far beyond clinical interventions. The facility provides an atmosphere of caring and warmth that complements the extraordinary medical care that is delivered by medical and surgical specialists who are all dedicated exclusively to children's health.

The hospital's comprehensive inpatient and outpatient pediatric services include a licensed cardiac surgery program (The Children's Heart Center provides expert treatment for even the most complex heart and lung conditions), state-designated regional perinatal center, pediatric intensive care unit, pediatric emergency department, Neonatal Sudden Infant Death Syndrome (SIDS)/Apnea Center, Valerie Fund Children's Center for Cancer and Blood Disorders, Neonatal Intensive Care Unit (NICU) with New Jersey's only ECMO unit, HIV/AIDS treatment for children as well as a sexual and child abuse program.

To learn more about our programs and services and our dedication to medical excellence, contact us at 973.926.7000.

Joshua S. Rosenblatt, M.D.
Chairman, Department of Pediatrics
Children's Hospital of New Jersey at Newark Beth Israel Medical Center
Director of Academic Affairs
