

WE MADE AN **IMPACT** TOGETHER

We are
now a
teaching
hospital!

27
Residents
in our first class

3
specialties
represented

July 7th
our first
Long Coat Ceremony

As we look back on 60 years of caring for the people of Ocean County, we're also looking forward to training the next generation of doctors at CMC in programs sponsored by Rutgers Health. Our residents will gain hands-on experience. Our leadership will have access to the latest research. Our patients will continue to receive the high-quality, compassionate care we are known for. We are proud to invest in the future of medicine and the future of Ocean County. We cannot do it without the support of donors like you. **Thank you.**

WE MADE AN IMPACT TOGETHER

Investing in the Community

The Grunin Foundation, based in Toms River and Red Bank, wants to improve the lives of residents of the Central Jersey Shore—and drive economic excellence in the community. To accomplish this, it has partnered with Community Medical Center (CMC) for many years, continuing a decade long tradition of generous support most recently by supporting the new academic education program.

CMC has begun its journey to become an academic medical center. Next summer, the hospital will introduce the Surgery Residency Program, and Transition Year Program, to follow in 2023, bringing more trainees to the hospital. The goal is to provide medical education to 117 residents by 2026.

To accommodate the trainees, CMC transformed a patient care unit into resident accommodations. The space includes resident lounges, study rooms, conference and learning spaces and program director offices. To support the Graduate Medical Education (GME) program at CMC, the Grunin Foundation has committed \$2 million over five years. “We feel a vibrant community is only as strong as its healthcare system,” says Jay Grunin, co-founder and chairman of the Foundation. “CMC is a hub in the community, and we want to help ensure that all residents have equitable access to quality healthcare. Becoming a teaching hospital takes CMC to a new level.”
