

# Web-Based Ordering and Result Reporting

Offered by

In keeping with our commitment to provide our clients with the best and most up-to-date service, Barnabas Health – Community Medical Center's Laboratory Outreach Program is pleased to announce a web-based result reporting and test ordering system

## Community Medical Center Laboratory Portal

Our Laboratory Portal offers physicians and healthcare providers many important benefits:

**Save Time.** No more looking for lost or misplaced reports. Use the Barnabas Health Laboratory Portal to quickly look up reports for viewing or printing.

**Convenient.** Now your results are accessible from anywhere you have access to the Internet.  
[www.lifepointlink.com/com](http://www.lifepointlink.com/com)

**Easy.** If you know how to surf the web, then you can use Barnabas Health's Laboratory Portal.

**No-Hassle.** The Barnabas Health Laboratory Portal eliminates the need for extra hardware in the office; simply use your existing computer and Internet connection.

**Limits Risk.** Test ordering functions check for medical necessity and help eliminate risk of non-compliance.

**Saves Money.** Put an end to inefficient chart pulls, and reduce phone calls to and from the lab concerning incomplete requisition forms.

**Useful.** Cumulative reports can be easily created and displayed in graphics or spreadsheet formats. Longitudinal studies can be viewed for multiple analytes, and then stored as templates for later use.

**Personalized.** Basic and historical reports can be customized for color, presentation, and then saved for later use.

**Complete.** The Barnabas Health Laboratory Portal was designed to meet the needs of our most demanding clients. This comprehensive system is loaded with all the features you'd expect: result retrieval, report printing, test ordering, and supply ordering. It's all here!

**No Cost.** The Barnabas Health Laboratory Portal is available free of charge and is available exclusively to clients of Barnabas Health – Community Medical Center.

**Secure.** The Barnabas Health Laboratory Portal uses the latest in Internet security technology; including firewalls, password protection schemes and the same 128 bit encryption used by banking institutions.

**Proven.** We have teamed up with leading lab technology company Lifepoint Informatics to create the Barnabas Health Laboratory Portal. Lifepoint Informatics has already helped several labs launch web-based outreach services, and its system is in use and trusted by thousands of physicians and healthcare providers nationwide.
