Delivered

80,000
Adults and Children
cared for in our
Emergency Department

10,703
surgical procedures
performed

15,151 of our family, friends
and neighbors admitted for
quality healthcare

Emergencies happen fast. We treat them the same way.

Clara Maass Medical Center always strives to meet the needs of our patients. Thanks to an initial investment of medical center funds, some of the newly designed spaces within the **Emergency Department at Clara Maass Medical Center** are complete, kick starting an ongoing renovation. This is just the beginning of what the generosity of several key donors will do to support the health of our community.

Our new Emergency Department features:

- Spacious, modern waiting areas for adult and pediatric patients
- Easy-to-access entrance for patient arrivals and departures
- A redesigned entrance with a single new walk-in/drop-off entrance
- New patient treatment rooms
- Private consultation room for confidential conversations between providers, patients and families
- Discharge lounge for patients waiting for transportation or for additional instructions from our health team

WE MADE AN IMPACT TOGETHER

If you or a loved one should ever need spinal or neurosurgical care, you're going to want the best technology available. Thankfully, with new leading-edge technology called "O-Arm Intraoperative Imaging System and StealthStation Navigation System" now available at Clara Maass Medical Center, you get it. This cutting edge equipment was made possible through a pacesetting grant from The Healthcare Foundation of New Jersey.

The innovative O-Arm Imaging and Navigation System allows surgeons to confirm the placement of hardware during procedures with greater accuracy and visualization. For example, certain spine screws can be positioned with 99-100% precision. Other benefits include...

- Shorter stays and faster recovery, allowing quicker return to day-to-day activities.
- Reduction of post-operative revisions, infections and decrease in blood loss.
- Lower radiation exposure to the surgeon and staff.
- Patients and families can stay close to home and receive care right here at Clara Maass.
