Over the past 53 years the Eatontown Food Pantry, through partnerships with RWJBarnabas Health (RWJBH) and several other socially concerned individuals and organizations, have successfully collaborated to alleviate food insecurity by regularly supporting approximately 200 families a month in Monmouth and Ocean County communities. The fresh bread, vegetables, fruits, eggs and yogurt products regularly provided by RWJBH are essential to ensure our clients receive healthy and nutritious meals.

We strongly encourage our elected officials to continue their generous support for the RWJBH's mission that provides such meaningful assistance for so many vulnerable households throughout New Jersey. They share our mission to help keep our communities healthy. Without their support, we would fall short of providing the help our clients depend upon for their well-being.

We sincerely appreciate our partnership with RWJBH and are especially grateful for their strong commitment to building and sustaining healthy communities throughout New Jersey.

Sincerely,

Richard Fowler
Executive Director
Eatontown Food Pantry
