Growth

It is my pleasure to express our strong support for RWJBarnabas Health and our appreciation for their continued partnership. Jewish Service for the Developmentally Disabled (JSDD) is a nonprofit organization dedicated to enhancing the independence, dignity, and quality of life for adults with intellectual and developmental disabilities and their families through an integrated program of community education and advocacy. JSDD strives to maximize potential and promote meaningful life experiences for every resident, member, and community participant. The annual support from RWJBarnabas Health allows our organization to invest directly in community-based initiatives and partnerships that advance well-being and inclusion across our shared communities.

JSDD's mission closely aligns with RWJBarnabas Health's commitment to building and sustaining healthier communities. Through our programs, we serve more than 200 adults and families across New Jersey, providing supportive housing, life-skills education, and wellness-focused programming that promotes physical, emotional, and social connectedness. RWJBarnabas Health's annual contribution helps strengthen these essential services, ensuring individuals with disabilities have access to safe housing, meaningful daily engagement, and the support they need to thrive in their communities.

RWJBarnabas Health has been a valued partner to JSDD, demonstrating a consistent commitment to community health through their ongoing support. This funding helps us maintain program stability and respond to the growing needs of individuals with developmental disabilities—particularly as demand for services continues to rise. Without renewed support, JSDD would face difficult decisions that could result in reduced programming, fewer individuals served, or limitations on critical support.

We express our sincere appreciation and gratitude for our partnership with RWJBarnabas Health and their commitment to building and sustaining healthier communities. Continued investment in RWJBarnabas Health's community partnerships is essential to sustaining programs that directly benefit individuals and families across New Jersey, and we are deeply thankful for their ongoing support of JSDD's mission.

Sincerely,

Dena Kevelson
Director Development
