Dear Barbara Mints, MS RDN

Robert Taylor

On behalf of Sadie Vickers Community Garden, we would like to express our sincere gratitude for your continued relationship and support in addressing food insecurity within our community.

William R. Burns
Esq.

A'jja Walker

Your commitment to community health extends far beyond clinical care, and our partnership reflects a shared understanding that access to fresh, nutritious food is a vital component of overall well-being. Through your collaboration, Sadie Vickers Community

Garden has been able to expand its reach, provide healthy produce to families in need, and create educational opportunities that promote sustainable nutrition and wellness.

RWJ Barnabas Health's has supported us over the last 3 years and has strengthened our ability to serve vulnerable populations, reduce barriers to healthy food access, and foster a sense of dignity and empowerment for community members facing food insecurity. Community Medical Center, which is a part of RWJ Barnabas Health, has been phenomenal in supporting the work of Sadie Vickers Community Garden by having employee volunteers to work in the garden. Together, we are making meaningful progress toward healthier neighborhoods and improved quality of life.

We deeply value this partnership, and ongoing commitment to community health.

With appreciation,

Sincerely

Sadie Vickers Community Garden
David Graham CEO
