

FOR YOUTH DEVB.OPMENr ·
FOR HEALTHY LMN6
FOR SOOAL RESPNSIIUTY

As a proud community partner of RWJBarnabas Health (RWJBH), The West Essex YMCA is deeply appreciative of the generous support that strengthens our ability to serve the community. Through this partnership, RWJBH provides an annual gift of \$20,000 to our Annual Support Campaign goal of \$390,000, ensuring that 559 economically challenged individuals and families can participate in life-changing programs that promote health, wellness, and personal growth. This funding also powers key initiatives, including our Golf Tournament-which raises camperships dollars so all children can access enriching summer experiences-and Bike Livingston, which fosters healthy living, community engagement, and bike safety for riders of all ages.

Beyond financial contributions, RWJBH actively advances our mission by participating as a vendor and resource at YMCA events such as Healthy Kids Day and Senior Health & Fitness Days, providing flu clinics, and seminars that expand access to preventive care and health education across our community.

Our collaboration with RWJBH is a model of how cross-sector partnerships create healthier, more equitable communities. Over the years, RWJBH's commitment has amplified our reach and sustained programs that would otherwise be at risk. Each year, this partnership helps us serve more than 2300 families across Livingston and surrounding communities. Continued funding for RWJBH is essential to maintaining these outcomes and advancing our shared mission of improving community health.

Thank you for recognizing the importance of this partnership and for supporting efforts that make a lasting difference.

Best Regards

CHER L TUTURICE
