

Community Medical Center

Community Medical Center, an RWJBarnabas Health hospital, is a 617-bed teaching hospital offering area residents highly sophisticated medical treatment close to home. Community Medical Center, together with Rutgers Cancer Institute, the state's only National Cancer Institute-designated Comprehensive Cancer Center, provides patients access to the most advanced cancer treatments including clinical trials, cellular therapies, complex surgical procedures and sophisticated radiation therapy techniques.

Community Medical Center offers a comprehensive array of services, including advanced cancer care, state-of-the-art neurology and neurosurgery services with a neuro-interventional lab and a bi-plane, and cardiac care featuring four cardiac catheterization labs. Surgical services feature two da Vinci XI robotic surgical platforms and the Mako robotic arm-assisted system for joint replacement surgery.

CMC offers technology typically not found at a community hospital, including a 3-Tesla MRI, digital mammography, the Rapid Arc linear accelerator (one of the most sophisticated linear accelerators used for radiation therapy), a CyberKnife for treating inoperable tumors, the Ion robotic-assisted bronchoscopy technology, and the Pulse Platform by NuVasive to help improve clinical outcomes of complex spine surgeries.

We are one of the area's most trusted providers of maternal services, offering superior obstetric care, a Level II special care nursery with 24/7 onsite neonatologists for newborns requiring special care, a midwifery program and a pediatrician in the emergency department. The emergency department is one of the largest providers of emergency care in New Jersey, with highly skilled physicians, nurses and ancillary staff. Specialized care is also offered through the Center for Wound Healing and Hyperbaric Medicine and the Comprehensive Breast Center. Our commitment to keeping people healthy is demonstrated by our active community education and outreach programs, including a partnership with the Sadie Vickers Community Resource Center that offers a community garden in South Toms River.
