

Help us improve autism research for the entire community by participating in the Autism EXPECT Study!

The Autism EXPECT Study is an online survey coordinated by the Autism Science Foundation in partnership with the University of Pennsylvania. We want to hear from autism families and autistic adults about what influences them to participate in clinical research.

You will be asked questions about why you have or haven't participated in research and about what might make your next research experience better.

This survey takes 30 minutes to complete. Participation is completely voluntary.
All participants will be entered for the chance to **WIN an iPad.**

We will use our findings to inform scientists about steps they can take to improve the research experience for members of the autism community.

Please take the survey at:
