

CSHAutism

Center of Excellence

The mission of **CSH AUTISM** is to support fulfilling lives for autistic individuals and their families. The mission rests upon these values: supporting lives with meaning and purpose, exercising choice, building on strengths, and empowering access to needed resources.

● SERVICES

We recognize the importance of clinical innovation to improve early identification and access to a variety of evidence-based therapies for autistic individuals.

● TRAINING

We strive to educate the world on the needs and strengths of individuals with autism, to improve access to and quality of support throughout the community.

● ADVOCACY

We appreciate neurodiversity and support autistic individuals in their pursuit of social, health care, and educational equity. We also recognize the effects that social determinants have on a person's health.

● RESEARCH

We are dedicated to the scientific exploration required to better understand and effectively support individuals with autism.
