What to expect:

We've conducted a walk audit and focus group to explore how community members get to Branch Brook park, home to the nation's largest collection of cherry blossom trees and a historic gem in Newark. Now we want your input on the findings!

Together we will:

- **Review key findings**, related to barriers, safety concerns and opportunities
- **Hear from NJ transit** on the Orange Street Light Rail upcoming improvements
- **Share ideas** that shape solutions to improve pedestrian, bike and transit access to the park
- **Connect with neighbors**, local organizations, and stakeholders passionate about making Branch Brook Park more accessible.

Join us to help ensure everyone can safely and easily enjoy Branch Brook Park!
