Average Daily Census (b)	224	332	101	182	327	477	227	559	194	97	66	177	2,963

Notes:

- (a) Days Cash on Hand, Days in Accounts Payable, and Days in Accounts Receivable are not calculated at individual hospital level; these ratios are only available at the consolidated system level.
- (b) Average Daily Census excludes newborns and other neonates with conditions originating in perinatal period.
- (c) NJ DOH definition: Operating margin adjusted to account for fees, allocations, and other Business Transactions with Interested Persons as those terms are defined in IRS Form 990, with the term "Interested Person" to include owners for the purposes of a for-profit Hospital.
- (d) In 2024, RWJ Barnabas Health ceased allocating medical group practice losses to the acute care hospitals. The results on the Operating Margin Including Medical Group Loss and the Adjusted Operating Margin Including Medical Group Loss lines reflect the acute care hospital margins as if the medical group practice losses were allocated as they were in past years.
