

CSH Financial Resource Guide:

Loan Programs

Made for Families by Families

This family to family resource was created by the Children's Specialized Hospital (CSH) Family Advisory Council in partnership with the hospital's Insurance Verification staff and Patient Care Coordination staff, to assist families in navigating financial resources. This is a guide (updated May 2020) and not a guarantee of funding or a recommendation for any specific resource—there may be changes to these resources and available funding after May 2020. Please speak with your healthcare providers, child study team or other members of your child's special needs healthcare team for additional support and guidance. We hope you find this list helpful in navigating financial resources that may be available to you and your family.

[Bank of America Access Loans](#)

The Bank of America Access Loans can be used for purchasing new or used equipment, vehicles with enhanced accessibility, or home modification projects.
