Presented by The Training Institute

# Train the Trainer

# The Toxic Truth: Flavors, Fumes and Teen Addiction

This Train-the-Trainer program is designed to equip participants with the knowledge, tools, and confidence needed to effectively deliver vaping prevention education within their communities. Participants will gain a comprehensive understanding of the current vaping epidemic, including trends, health risks, and the impact on youth.

Through this training, attendees will learn how to present engaging, evidence-informed information to both youth and adults, empowering them to have meaningful conversations and promote prevention. The program also provides guidance on school policies, early intervention strategies, and available cessation resources.

Each participant will receive a complete training package, including a facilitator manual, a USB drive with a ready-to-use PowerPoint presentation, vaping fact cards for youth and parents, and access to additional resources to support education and outreach efforts.

By the end of the training, participants will be prepared to confidently train others and deliver impactful vaping prevention programming within their organizations and communities.

**Training covers:**

- Current trends in vaping among adolescents
- Tips for conversation about treatment
- Treatment programs and practices
- Current policies and laws regarding vaping among adolescents
