

# WE MADE AN **IMPACT** TOGETHER

**Earned 14 “A” national safety ratings**  
from the *Leapfrog Group* since  
the program’s inception in 2012.

Since 2014, the hospital  
has been designated a  
**“Leader in LGBT”**  
by the Healthcare Equality  
Index (HEI)

The **ONLY** hospital in  
Hudson County to receive  
**Magnet Designation**  
**for Nursing Excellence**  
three times.

Our EMS service is the **FIRST** in the U.S.  
to earn **triple accreditation** in  
**dispatch, education and**  
**emergency medical service.**

Jersey City Medical Center is invested in the health of Hudson County. We provide advanced, state-of-the-art medical treatment across a broad spectrum of different disciplines inside the hospital and beyond our walls into the community where our patients live and work. From screenings and diagnostics to life-saving, intensive care, our patients can count us. Jersey City Medical Center is a designated Regional Trauma Center and Hudson County’s largest provider of emergency services with more than 18,000 admissions and over 80,000 emergency room visits each year. Our planned Emergency Department/Operating Room Pavilion will include 60,000 square feet of new space to house private emergency treatment rooms and new surgical suite to serve the growing patient volume in Hudson County.

# MISSION MOMENTS

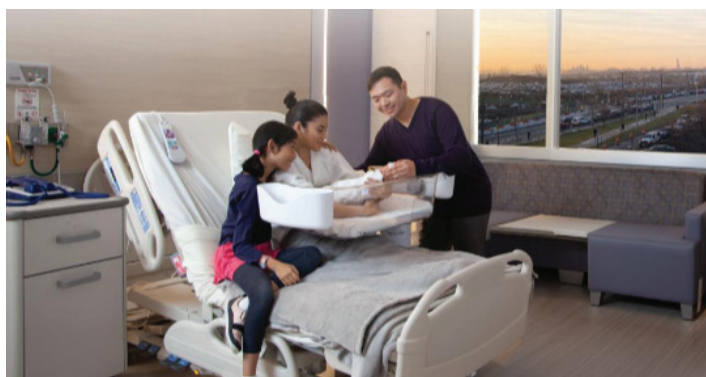

Jersey City Medical Center is proud to announce the opening of the Madeline Fiadini LoRe Infusion Center, expanding the delivery of cancer care – close to home in Hudson County. In partnership with Rutgers Cancer Institute of New Jersey, the state's only National Cancer Institute (NCI) designated-Comprehensive Care Center, Jersey City Medical Center provides patients with advanced cancer treatment options, including clinical trials, complex surgical procedures, and sophisticated radiation therapy techniques. The Infusion Center includes eight infusion bays, two private rooms, and specialty trained staff, including Nurse Navigators. Construction of the Infusion Center was made possible in part by a \$1 million dollar philanthropic gift from the Madeline Fiadini LoRe Foundation.

Jersey City Medical Center is excited to announce the opening of Women's Health at Grove Street. The center offers a full range of services to women during different stages of life. Whether it's your first gynecological exam, pre-natal care during pregnancy, maintaining wellness or post-menopausal care and anything in between, we've got you covered. With a special emphasis on preventative medicine, our services are designed with women's unique needs in mind including obstetrics, midwifery, prenatal care, annual exams, ultrasound, mammography, infertility treatment and menopause care.

Food is medicine. What people eat and drink can strengthen their immune system, increase energy and ward off chronic diseases like diabetes and cardiovascular conditions. That's why Jersey City Medical Center has created a program, the Green Apple Rx, JCMC Food FARMacy, to provide patients at its Greenville Primary Care practice with healthy foods. The Food FARMacy program was launched with a generous grant from ACME's Nourishing Neighbors Community Relief Program. To keep the shelves stocked, the Food FARMacy partners with the Community FoodBank of New Jersey. The program has also received significant donations from Goya Foods and local community agencies and donors. The Food FARMacy is one of Jersey City Medical Center's many initiatives to go beyond the walls of the hospital to help the residents of Hudson County.

The Lord Abbett Maternity Wing at Jersey City Medical Center opened in January 2020, through the partnership and support of Lord, Abbett & Co. LLC (Lord Abbett), an independent, privately held investment management firm based in Jersey City. The 17,500 square-foot, innovative floor features 20 additional private mother-baby rooms, designed to promote family bonding and provide the best outcomes for newborns, mothers, and families. Room features, floor amenities, and modern equipment on the new wing are all focused on providing a family-centric birthing experience that matches the world-class labor and delivery services available at Jersey City Medical Center.
