

Thanks to a \$10 million gift from philanthropist Sheldon Vogel, Monmouth Medical Center (MMC) has dedicated the **Anne Vogel Family Care and Wellness Center**, located at the Monmouth Mall. The new Eatontown location is providing the region with convenient access to comprehensive women's services, pediatric services, specialty surgical services, urgent care services, and a laboratory drawing station. The four-story building features comprehensive children's services, including pediatric subspecialty practices in cardiology, endocrinology, gastroenterology, general surgery, urology, pulmonology and infectious disease, and women's services including maternal/fetal medicine physician offices. The building also serves as the new home for MMC's pioneering Perinatal Mood and Anxiety Disorders Center. The innovative medical and wellness facility includes educational resources through the LiveWell Center and WForum Demonstration Kitchen featuring Dorothea and Jon Bon Jovi Nutrition Education Programs, a Breastfeeding Wellness Center, and will soon offer medical and therapy services provided by Children's Specialized Hospital, a fellow RWJBarnabas Health facility. This generous gift came on the heels of the Vogels' record-breaking \$50 million donation in 2020 to establish the Vogel Medical Campus in Tinton Falls, which is under development three miles away. The Vogels' commitment supports the hospital's vision to thoughtfully expand access to its outstanding programs and services.

In other recent news, **MMC** was named to the 2022 Newsweek list of World's Best Hospitals. One of just 414 of the 6,000 hospitals in the U.S. to be added to the list, this prestigious award recognizes quality care. According to the Newsweek report, leading hospitals set themselves apart with continued ability to deliver the highest-quality patient care and conduct critical medical research even as they focused on battling COVID-19. "We are so proud to be listed among the world's best hospitals

and hope this designation is helpful to patients and families seeking the best care for themselves and loved ones," said MMC and Monmouth Medical Center Southern Campus President and CEO Eric Carney. The 2022's World's Best Hospital's list recognizes the best medical institutions across 27 countries.
