WE MADE AN IMPACT TOGETHER

MAGNET RECOGNIZED
AMERICAN NURSES CREDENTIALING CENTER

ANCC Magnet Recognition Program®

183,914 Outpatient visits

8,948 Surgeries

5,823 Babies born

48,938 ER visits

As one of New Jersey's largest academic medical centers, Monmouth Medical Center (MMC) attracts the state's top physicians. Along with The Unterberg Children's Hospital, MMC serves as a regional medical campus of Rutgers Robert Wood Johnson Medical School and also partners with Rutgers Cancer Institute of New Jersey to bring the newest and most promising treatments to MMC patients. Currently delivering care to more than 22,000 inpatient visits and over 48,000 Emergency Department visits each year, MMC constantly provides quality, compassionate care close to home. **Thank you for your support.**

WE MADE AN IMPACT TOGETHER

Monmouth Medical Center (MMC) has been named a Guardian of Excellence Award® winner by Press Ganey recognizing it as a top-performing health care organization achieving a Patient Experience rating in the 95th percentile or above. MMC is the only hospital in Monmouth and Ocean counties to be recognized. This recognition comes on the heels of a host of other national recognitions for MMC, including its 13th consecutive 'A' Hospital Safety Score by the Leapfrog Group, Magnet® recognition of MMC's nursing professionalism, teamwork and superiority in patient care, and inclusion on Newsweek's 2020 list of Best Maternity Care Hospitals.

Monmouth Medical Center's Unterberg Children's Hospital recently marked the 15th anniversary of its designation as a licensed Children's Hospital. The hospital was the first in New Jersey to establish a neonatal intensive care unit (NICU) in 1968. Now, the state-designated Level III NICU treats more than 550 infants each year. It is also one of eight hospitals in the tristate area with a Valerie Fund Children's Center, which provides compassionate, family-centered care for children with cancer and blood disorders.

Monmouth Medical Center earned another 'A' Hospital Safety Score rating by the Leapfrog Group, an independent national nonprofit run by employers and other large purchasers of health benefits. It is the only hospital in the region to receive an 'A' Hospital Safety Score by the Leapfrog Group for 13 consecutive rating periods. "We are proud to deliver the highest quality care and safest experience for our patients and employees, and I am exceedingly proud that our latest 'A' score was earned as we continued to face the unparalleled challenges presented by the COVID-19 pandemic," says said Eric Carney, President and Chief Executive Officer of Monmouth Medical Center and Monmouth Medical Center Southern Campus.

Recently, two Monmouth Medical Center (MMC) spine surgeons, Marc Menkowitz, MD, and Steve Paragioudakis, M.D., surpassed 100 patient cases using cutting-edge GPS-based robotic technology for minimally invasive spine surgery. In late 2019, MMC became the second hospital in New Jersey to introduce the robotic spine technology that combines a robotic arm with computer-assisted navigation. With this technology, the procedure is more accurate and less invasive than traditional surgery.
