

Healthcare is constantly evolving and nurses must stay current with the latest evidence-based practices, technologies and standards of care.

The Monmouth Medical Center Southern Campus (MMCSC) Foundation recognized long-time friends and generous hospital patrons Fred Van Looy and Barbara Dougherty for their extraordinary support of a new Learning Center inside the hospital on March 24, 2026.

The ceremony opened with remarks by MMCSC Foundation Board of Trustees Chair Robert Sickel, who thanked the couple for their ongoing commitment to MMCSC. “The Fred Van Looy & Barbara Dougherty Learning Center for Interprofessional Education and Simulation will provide ongoing training and hands-on practice to bring the highest level of excellence to our patients,” he said. “Continued training is necessary in healthcare and simulation training is a powerful resource.”

Women of Hope

The annual Women of Hope Luncheon held at Eagle Ridge Golf Club hosted a sold-out crowd of more than 250 women.

An all-female women's health panel, included: Certified Genetic Counselor Elena Ashkinadze, MS; OB/GYN Eliana Fine, MD; Chief of Breast Surgery and Co-Director of the multidisciplinary breast program at Rutgers Cancer Institute and the Jack & Sheryl Morris Cancer Center Kathie-Ann Joseph, MD and Regional Nutrition Manager Jennifer Klein, MS, RDN. The panel was facilitated by Suzanne Sernal, DNP, APN-BC, SVP, RWJBarnabas Health and Women's Health, which raised awareness of the stages of life that women should complete screenings and genetic testing.

The keynote speaker was cancer survivor and advocate Charlene Aminoff, who inspired event-goers with her message of hope through challenge and looking to G-d/Hashem, after a cancer diagnosis. There was also a special appearance by noted singers Ruchama Braun and Shaindy Plotzker.

Lantern Award

Monmouth Medical Center Southern Campus is one of 96 hospitals in the United States to be honored by the Emergency Nurses Association (ENA) with their Lantern Award, which recognizes emergency departments that demonstrate exceptional and innovative performance in leadership, practice, education, advocacy, and research.

The Craig Robert Lawson Tree of Life

is located in the Monmouth Medical Center Southern Campus Emergency Department waiting area. Its leaves and pomegranates provide an opportunity for you to recognize milestones while bringing comfort and strength to those in need of our services. **Honor a loved one through a gift to the Tree of Life.** Scan here to make a gift. ►

The Lennar Foundation Wall of Hope

in the waiting room of the Jacqueline M. Wilentz Comprehensive Breast Center at MMCSC serves as a celebration of life, a remembrance of loved ones, and a reminder to never give up hope.

Personalize a diamond on the Wall of Hope. Scan here to make a gift. ►
