

THE UNTERBERG Children's Hospital LEADERSHIP COUNCIL

Community Support for Healthy Futures

Who We Are

The Unterberg Children's Hospital Leadership Council is a group of committed individuals who serve as ambassadors for the hospital within the community. We believe healthy, safe, and educated children are our future, and promote the excellence The Unterberg Children's Hospital at Monmouth Medical Center delivers through community awareness, including education and local events.

Our Mission

- To advocate for the health and well-being of children based on the belief "If you even change one life, you begin to change a community"
- To educate about the services available at The Unterberg Children's Hospital
- To raise awareness and foster philanthropic relationships for The Unterberg Children's Hospital through community events

Our Hospital

The Unterberg Children's Hospital at Monmouth Medical Center offers comprehensive care for children and families unrivaled throughout the region, with over 26 pediatric subspecialty areas and more than 140 highly qualified pediatricians. Every aspect of care features a child-friendly, family-focused approach and wholehearted dedication to medical excellence. The Unterberg Children's Hospital delivers care that changes children's lives, restores hope and fosters dreams for tomorrow.

Show Your Support

Play a meaningful role in helping the children in our community when you partner with The Unterberg Children's Hospital Leadership Council. Your commitment helps ensure every child has an opportunity to embrace health and wellness.

Every contribution helps support the following initiatives of The Unterberg Children's Hospital Leadership Council:

- **Educational Lecture Series** – Educational discussions for parents focused on enriching children's health and wellness through a partnership with The Unterberg Children's Hospital physicians and clinical teams, as well as community resources
- **Paintings of Hope** – Paintings of Hope was designed to commemorate the artwork of pediatric patients created through the Child Life Program at the Unterberg Children's Hospital. Child Life plans individual and group programs that help children adjust to their hospital stay and promote the continuity of normal, daily childhood activities.
- **A Toast to Children's Health** – Our annual wine tasting event, which benefits The Unterberg Children's Hospital
