Turn Your Next Mammogram Appointment into a Fun, Relaxing Experience with Friends, Family, or Co-workers:

Host a Mammogram Party at the Jacqueline M. Wilentz Breast Centers at Monmouth Medical Center

The Jacqueline M. Wilentz Breast Center provides:

- The date and time most convenient for your group
- The mammography technologist and state-of-the-art equipment
- A private area for you and your guests
- Invitations for you to mail or handout; plus all the "fun" amenities at no charge, including facials, chair massages, refreshments, hostess gift and goodie bags for all guests

You provide:

Four to seven people who are due for their yearly screening mammogram and their email addresses

Your guests provide:

Insurance information, referring physician name, address and phone number and prescription, if required; along with films of their previous mammograms if done at another facility.*

(*Most insurance companies and Medicare will cover the cost of an annual screening — must be 12 months plus one day from your last mammogram. We can obtain films for them if a release form is signed with the location and date of their last mammogram.)

Call Laura Gallo at 732.923.6509 to reserve the date and location for your mammogram party.

Screening Mammography

For patients with no abnormal breast symptoms, a screening mammogram offers the best opportunity for early detection of breast cancer. The procedure takes approximately 15 minutes and most screening mammograms do not require a physician order. Once a baseline is established, future mammograms are

compared to detect changes through the aging process. Patients have the option for emailed results.

Breast Cancer High Risk Program

At registration, mammography patients use a tablet-style computer to check off answers to questions related to breast history and family cancer history. Based on guidelines published by the National Comprehensive Cancer Network, the data gathered helps us estimate each patient's risk of gene mutation as well as lifetime risk of developing breast cancer. Risk assessment reports are then provided to both the patient and their physician. On-site genetic counseling is available.

Diagnostic X-Ray

For the convenience of our patients, we also offer diagnostic X-ray services utilizing modern and state-certified equipment.

The Jacqueline M. Wilentz Breast Center at Howell offers western Monmouth County residents convenient access to Monmouth Medical Center.

Our satellite facility offers screening mammography services in a comfortable and

compassionate setting. All imaging exams conducted at our satellite location are performed by experienced mammography technologists and interpreted by Monmouth Medical Center's dedicated breast imagers. No appointments are required for mammography services.

What We Offer

Our state-of-the-art facility offers the latest in medical equipment, technology and services, including:

A Commitment to Excellence

A host of quality recognitions illustrate the Wilentz Center's commitment to outstanding care.

- The Leon Hess Cancer Center at Monmouth Medical Center holds the **Joint Commission's Gold Seal of Approval** for its comprehensive breast cancer treatment program. This prestigious certification recognizes the Leon Hess Cancer Center for meeting all national standards for quality and safety for breast-cancer-specific care. To earn the Gold Seal of approval, the Leon Hess Cancer Center, in conjunction with the Jacqueline M. Wilentz Comprehensive Breast Center, underwent a rigorous on-site survey that reviewed credentials of staff and physicians, processes of care and performance improvement initiatives.
- The Jacqueline M. Wilentz Comprehensive Breast Center is the first facility in New Jersey and the 10th in the nation to be accredited as a **Certified Quality Breast Center** by the National Quality Measures for Breast Centers.
- Joining only a handful of breast imaging centers across the nation, the Wilentz Center was designated a **Breast Imaging Center of Excellence** by the American College of Radiology's (ACR) Commission on Quality and Safety and the Commission on Breast Imaging.
- The Wilentz Center is the first center in Monmouth and Ocean counties to be granted three-year full accreditation designation by The National Accreditation Program for Breast Centers (NAPBC) for "providing the highest quality evaluation and management of patients with breast disease."
- The Wilentz Center is the first facility in New Jersey and just the 20th in the nation to earn **American College of Radiology Gold Seal Accreditation** for breast MRI.
