

# WE MADE AN IMPACT TOGETHER

**Newark Beth Israel Medical Center, an RWJBarnabas Health facility, marked a historic milestone in its Newark Strong Project.**

The construction of the hospital's new 17,500 square-foot, glass-enclosed lobby is now complete. The lobby is the most visible element of the expansion that began in 2019 and has transformed the face of the hospital, producing new state-of-the-art medical units, and creating more opportunities for engagement with the community.

“This Newark Strong Project affirms our commitment to delivering world class care to our patients, and an excellent experience to every visitor who walks through our doors. Last year, we opened our new state-of-the art geriatric unit, and we are on the verge of opening our new redesigned cardiothoracic intensive care unit, these new treatment areas along with the new glass-enclosed lobby, elevate the hospital experience for our patients and their loved ones, and there is more to come. By the end of 2024 Newark Beth Israel will have a newly designed and expanded emergency department, cardiac catheterization lab, and several new operating rooms,” said Darrell K. Terry, Sr., MHA, MPH, FACHE, FHELA, President and Chief Executive Officer of Newark Beth Israel Medical Center and Children’s Hospital of New Jersey. “The future is bright for Newark Beth Israel Medical Center and the future is here.”
