

Educational Offerings

2023

At RWJ Barnabas Health, the value that is placed on developing and supporting our professional nurses through education is unprecedented. We are constantly creating innovative ways to help educate our staff to ensure that outcomes and safety are always the priority. Our exceptional nursing practice is based upon providing structural empowerment for patient-family centered care, shared decision-making, autonomy, and clinical excellence. None of this wonderful work could be done without education, professional development and the support of our staff from The Center for Professional Development, Innovation and Research.

We know that as you review this catalog of educational offerings across the system, you will find many ways to give a voice to your ideals, to strive for personal, professional, and academic excellence. It is through your participation in these educational programs that will enable us to exceed our reputation as one of the most innovative and successful health care systems in the country.

Nancy Holecek MAS, MHA, BSN, RN

Executive Vice President
Chief Nursing Officer
RWJBarnabas Health

The Center for Professional Development, Innovation and Research

The Center for Professional Development, Innovation and Research at RWJBarnabas Health is dedicated to ensuring that members of the health care team have the resources to excel in this increasingly complex and challenging health care environment. We offer orientation programs, in-service education, simulation, continuing education, leadership development classes and clinical skills validation across all of the specialties. We believe that excellence is possible through ongoing education, professional development and training.

Our team is highly skilled and knowledgeable. They are committed to providing ongoing opportunities to practice, learn and grow professionally.

This catalog highlights some of the courses that will be offered in 2023 across the health system. For additional education, professional development opportunities, please contact The Center for Professional Development, Innovation & Research at your facility.
