The Center for Professional Development, Innovation and Research
At the RWJ/Barnabas Health System the value that is placed on developing and supporting our professional nurses through education and development is unprecedented. Since the merger between RWJ and Barnabas Health we have explored and developed many innovative ways to help educate our staff to ensure that outcomes and safety are always the priority. Our exceptional nursing practice as one system is based on providing structural empowerment for patient-family centered care, shared decision-making, autonomy, and clinical excellence. All of this wonderful work could not be done without education and professional development and the support of our staff from The Center for Professional Development, Innovation and Research. We know that as you review this catalog of educational offerings offered at 11 hospitals across the system for 2019 you will find many ways to give a voice to your ideals, to strive for personal, professional, and academic excellence, and to accept the challenge of the human experience in health care and beyond. It is through your participation in these educational programs that will enable us to exceed our reputation as one of the most innovative and successful health care systems in the country.
The Center for Professional Development, Innovation and Research (CPDIR) at RWJ/Barnabas Health is dedicated to ensuring that clinicians and other members of the care team have the resources to excel in this increasingly complex and challenging health care environment. The center offers orientation programs, in-service education, simulation training, continuing education courses, leadership development classes and clinical skills validation across all of the specialties. This environment of academic excellence is palpable throughout our campuses which clearly sets us apart from other health systems across the country. We believe that excellence is only possible through ongoing education, development and training. Our team of highly skilled and knowledgeable clinicians from CPDIR is committed to providing ongoing opportunities to practice, learn and grow professionally. They are the foundation for imparting clinical skills, theoretical understanding and critical reasoning to ensure outstanding patient-family centered care. This catalog highlights the basic and on-going courses that are being offered in 2019 across the health system. It is in no way a comprehensive document of all the education and training that is provided annually by our clinicians throughout the year. Please use this as a guide to help you plan your year of education and professional development and reach out to your hospital specific CPDIR department with questions as we progress through this journey as one system together.

KEZ
The Center for Professional Development, Innovation and Research (CPDIR) is committed to contributing toward the development of all staff in provision of safe, competent and quality patient care by presenting educational activities that enhance clinical knowledge and skills. We extend to you the invitation to continue to grow in your career, and to take full advantage of these opportunities to be an active participant in the learning process.

Contact hours will be provided as appropriate for each course.

**Registration:**

You will be able to register for most classes through NetLearning, Health Stream and Survey Monkey (please read the course details for instructions, or check with your nursing instructor). **Please note: classes are subject to change or cancellation.** If you would like additional information about a course, or to register, please do one of the following: refer to your hospital specific Nursing Education/CPDIR intranet page; contact your Clinical Nurse Specialist/Clinical Nurse Educator, or contact the Course Instructor. All educator phone numbers and email addresses are on the Hospital contact pages (pages 5-13) of this program book.

Courses **that require a fee for non-employees** can be paid by contacting the person that is on the Survey Monkey registration form, or refer to the information that accompanies the course in this program book. Below are the **fee schedules** for courses that **non-employees** can attend:

**Half Day Course Prices:**
**RWJBH Employees and Student Cost: No charge**
NJ Consortium of Educators: $35.00/day
All Others: $75.00/day

**Full Day Course Prices:**
**RWJBH Employees and Student Cost: No charge**
NJ Consortium of Educators: $75.00/day
All Others: $125.00/day

If you have issues registering for a course, please contact Cheryl Barber, email Cheryl.Barber@rwjbh.org, in the Center for Professional Development, Innovation and Research department, or contact the course instructor.

2 Day AWHONN Intermediate Fetal Monitoring Course

Purpose: This intermediate course focuses on applying essential fetal heart rate monitoring theory and skills in intrapartum practice. Participants must attend both days.

Day One: Participants will analyze case studies and use a physiologic-based approach to interpret fetal monitoring data.

Day Two: Participants will attend skill stations offering demonstration, practice and testing in auscultation, Leopold’s Maneuvers, insertion and placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of tracings and identification of communication, documentation, and nursing interventions.

Course Requirements: The course builds on the knowledge and skills of experienced nurses. It is designed for registered nurses with a minimum of six months clinical nursing experience using fetal heart rate monitoring technology in an intrapartum setting.

Target Audience: Labor and Delivery and Antepartum Nurses

Date(s): March 20th and 21st
Time: 7:30am – 4:00pm
Location: Monmouth Medical Center

Date(s): September 17th and 18th
Time: 7:30am – 4:00pm
Location: Community Medical Center

Instructor(s): Wendy Reich MSN-Ed, RNC-OB, C-EFM, CBC
Email: Wendy.Reich@rwjh.org

Susan Urbanek MSN, RNC-OB
Email: Susan.Urbanek@rwjh.org

Fee: Sign-up and Pay consortium (Information will be on flyers)
Building Blocks of Perinatal Critical Care

**Purpose:** To provide current evidence-based education regarding nursing care of the complex perinatal patient.

**Target Audience:** Labor and Delivery, Antepartum, and Critical Care Nurses
