

**Kiwon Lee,
MD, FACP,
FAHA, FCCM**

Publication Highlights:

He is the editor-in-chief of a formal textbook that is being used worldwide, the *Neuro-ICU Book*, and has more than 250 peer-reviewed abstract articles, book chapters and original clinical research publications. He has been invited to give numerous keynote speeches and grand rounds, as well as continued medical education and special lectures in the United States and around the world. He has chaired national and international academic sessions at the medical/surgical society congress meetings and directed national level medical conferences. He has mentored and trained many academic neurologists, neurosurgeons, intensivists, anesthesiologists and emergency medicine physicians in the United States, and professor and scholars from many other countries. He is a reviewer for several leading medical journals including the Neurology, Cerebrovascular Disease, Neurocritical Care, Journal of Intensive Care Medicine, and Critical Care Medicine. He is the editor for neurological critical care for the critical care year book publication of the society of critical care medicine. He is an active member of the American Academy of Neurology, American Heart Association, American Stroke Association, Neurocritical Care Society and Society of Critical Care Medicine. He is on the editorial advisory board for the journal of Hospital Practice. He has been named a fellow of the American Heart Association, American Stroke Council, American College of Physicians, and American College of Critical Care Medicine.
