

Robert Wood Johnson University Hospital Hamilton (RWJUH Hamilton), opens the H.H. Tuchman Cardiac Interventional Suite, named in honor of a generous donor's family member who passed away from heart disease.

The unit provides patients and their families with newly renovated private rooms for both pre and post-operative cardiac care. The opening came shortly after RWJUH Hamilton received its licensing to perform emergency and elective angioplasty. The addition of emergency and elective angioplasty to RWJUH Hamilton provides Mercer County residents and beyond the highest quality cardiovascular care close to home.

"It's been a long journey for RWJUH Hamilton to receive the licensing to perform elective angioplasty. In order to accommodate the added angioplasty volume, we needed to advance the H.H. Tuchman Cardiac Interventional Suite to provide our patients with a technologically advanced and comfortable location for their recovery," said Richard Freeman, President and CEO of RWJUH Hamilton. "This was an effective utilization of available space that the hospital repurposed and renovated in order to meet today's community needs, and all made possible by one generous donor."

WE CAN MAKE AN IMPACT TOGETHER

Grateful patient

Local tattoo artist and cardiac patient Mike Clugston, is so thankful for the care he received at RWJUH Hamilton, he became a sponsor for our annual Heart and Soul event. "I was diagnosed with heart failure at RWJUH Hamilton. After further tests it was discovered that I had an aneurysm of the ascending aorta. I was told that open heart surgery was necessary. Needless to say, this was a very emotional as well as frightening diagnosis. After spending five days at Hamilton after my diagnosis, and then traveling to Robert Wood Johnson University Hospital New Brunswick for my surgery, I was confident that I was in good hands. Everyone from the minute I entered the ER that fateful day, and throughout my entire experience with this life saving surgery, was amazing to say the least. I since have made a full recovery, and my heart is back to full function. I would not be here today without them." **Scan and read more patient stories.** ▶

MAGNET® Recognized

RWJUH Hamilton has earned Magnet recognition for nursing excellence from the American Nurses Credentialing Center (ANCC). The designation is the nation's most prestigious nursing honor—one that only 9 percent of hospitals across the country have achieved.

Young Professionals

The Young Professionals Group (YPGs) of RWJUH Hamilton pledged \$150,000 to support the growth of the cardiology program and the opening of the hospital's H.H. Tuchman Cardiac Interventional Suite. The YPGs pledge also offers an opportunity for naming of the Nurses Station in the H.H. Tuchman Cardiac Interventional Suite.

I Believe in Pink

The I Believe in Pink Fund has again come to the aid of our patients in need. Started over 10 years ago with one woman's courageous cancer journey, made easier by the support of family and friends, I Believe in Pink continues to make a difference. Since 2018, I Believe in Pink has provided over \$30,000 in financial assistance for medical costs not covered by insurance, transportation to vital treatments and appointments, nutritious foods, household assistance and specialty items like bras and wigs for breast cancer patients at RWJUH Hamilton's Cancer Center in partnership with Rutgers Cancer Institute of New Jersey, the state's only National Cancer Institute-designated Comprehensive Cancer Center.
