University Hospital

# PEDIATRIC ORTHOPEDIC PROGRAM

The Bristol-Myers Squibb Children's Hospital at Robert Wood Johnson University Hospital in conjunction with Pediatric Orthopedic Associates is recognized as having the premier children's orthopedic program in New Jersey.

Entering the fourth decade of care to our region's children, our program has grown to include nine full-time pediatric orthopedic surgeons. We continue to treat all aspects of child and adolescent musculoskeletal problems. Recent growth includes an expanding trauma program, advances in scoliosis care and advanced procedures for hip disorders and sports injuries.

## IMPORTANT NUMBERS

HOSPITAL ORTHOPEDIC CLINIC  
APPOINTMENT LINE:
