Hypersplenism

Portal hypertension

Portal hypertension

### Skin disorders

Congenital nevi

Pilonidal disease

### Pediatric neoplastic disorders

Lymphadenopathy

Mediastinal or lung tumors

Breast mass

Head and neck mass

Neuroblastoma

Wilms' tumor

Retroperitoneal tumors

Liver tumor

Pancreatic tumor

GI tumor

Mesenteric mass

Testicular mass

Ovarian mass

## PEDIATRIC GENERAL SURGERY PROGRAM

The Pediatric General Surgery Program at The Bristol-Myers Squibb Children's Hospital (BMSCH) at Robert Wood Johnson University Hospital offers a wide range of highly specialized surgical services for infants, children and adolescents (ages newborn to 21).

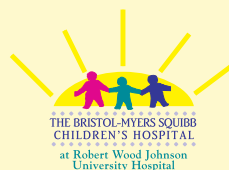

## HIGHLIGHTS

- Team of 3 board-certified pediatric surgeons
- Two acute-care nurse practitioners
- Minimally invasive surgery
- Access to subspecialists for multidisciplinary collaboration on complex cases
- Dedicated pediatric anesthesiology team
- Seasoned Child Life Program and specialists
- Actively involved in clinical research to continuously improve pediatric surgical care

# PEDIATRIC GENERAL SURGERY

## FACILITIES

### CENTER FOR ADVANCED PEDIATRIC SURGERY

The general surgery team operates solely out of the state-of-the-art Center for Advanced Pediatric Surgery at BMSCH. The Center is dedicated exclusively to children's procedures with 6, fully equipped, kid's size operating rooms and technologies like:

- Innovations in minimally invasive robotic and laparoscopic surgery
- Black Diamond video technology for integrated, simultaneous viewing of images and results as well as room-to-room communication
- Specialized LED lighting to aid in optimal, calm recovery

### OUTPATIENT SUITE: SURGICAL CARE FOR KIDS

The Pediatric General Surgery team now shares outpatient clinic space with a wide range of surgical subspecialists from New Jersey's only pediatric academic health campus.

The Center is the first of its kind in central New Jersey and it greatly improves access to high quality care for patients and families. They can benefit from the seamless collaboration of multi-specialty surgeons for the very best possible outcomes.

### SPECIALISTS INCLUDE:

- Neurosurgery
- Urology
- General Surgery
- Otolaryngology
