

RADIATION ONCOLOGY

ABOUT THE PROGRAM

The Radiation Oncology Program at Robert Wood Johnson University Hospital New Brunswick and Rutgers Cancer Institute of New Jersey offers a full range of the most advanced radiation modalities, caring and accomplished faculty and the resources of a National Cancer Institute(NCI)-designated Comprehensive Cancer Center.

Our faculty are leaders with specialized expertise dedicated to providing the most advanced and comprehensive care possible, using the latest technology. As part of the State's only NCI-designated Comprehensive Cancer Center, our faculty are committed to improving care for our patients, through clinical trials, teaching residents and medical students, and leadership and lecturing at the national level.
