

The Living Donor Institute **at Cooperman Barnabas Medical Center**

The Living Donor Institute at Cooperman Barnabas Medical Center would like to thank you for your interest in learning about living kidney donation. Our primary goal is your health, safety, and well-being throughout the kidney donation process.

RWJBarnabas
HEALTH

Cooperman Barnabas
Medical Center
Living Donor Institute

The first step to begin your evaluation as a potential living donor is to complete our online health history questionnaire. Before you begin, please obtain your accurate weight/height. You will need this information to proceed. Please choose a time when you can give your full time and attention to answering the questions accurately and completely. Your responses to this questionnaire are important and the first step in your journey toward living kidney donation.

To access the questionnaire, please visit:
CBMCLivingDonor.org or **scan the QR code**.

If you have questions or would like to learn more, please visit rwjbh.org/ldi or contact a living donor team member at: CBMCLivingDonor@rwjbh.org.

Thank you in advance for your generous offer to learn about living kidney donation.

The Living Donor Institute

Striving for excellence in the care of living donors and their recipients.

Potential living donors learn about donation through individual education and evaluation sessions with a Living Donor Transplant Coordinator, Physician, and Social Worker. Blending the most modern technology and resources with attentive personalized care, the Living Donor Institute provides comprehensive support for the patient and their families throughout the process of donation and transplantation. All communication between donors and RWJBarnabas Health is confidential.

The Renal and Pancreas Transplant Division

The Renal and Pancreas Transplant Division, located at Cooperman Barnabas Medical Center in Livingston, NJ, is one of the leading kidney transplant centers in the country. Averaging almost 400 kidney transplants annually, the Division is one of the largest transplant centers in the Northeast. The Transplant Division offers an array of innovative options that allow patients with chronic kidney disease to receive kidney transplants from living donors and deceased donors as soon as possible.
