

Welcome Back.

Outpatient Services: Ready to see you.

The safety and health of our patients, caregivers and team members are always our highest priorities.

We recognize that patients and their families may be fearful of seeking medical care at this time. For Saint Barnabas Medical Center, as a high reliability organization, safety comes first and is embedded in everything we do. With the safety of our patients and team members at the forefront, we are taking appropriate precautions and using best practices to ensure the highest quality care, protection, support and comfort for all of our patients.

These measures will include continued use of PPE by staff when treating COVID-19 positive and non-COVID patients; stringent cleaning and disinfection; continued visitation restrictions; symptom and temperature screening at all entrances; masks or face covering to be worn; social and physical distancing; and exemplar hand hygiene.

Outpatient Services as of October 8, 2020 (times are subject to change; always call to confirm)
